Dear Client:

Subject: CRN's for Boiler and Pressure Vessel Designs.

As requested please find the following general information regarding ACI Central and our Canadian Registration Number design review service.

ACI Central is a non-profit organization made up of voluntary members representing the provinces and territories of Canada. Membership is open to all boiler and pressure vessel Regulatory Authorities. The current membership includes the Regulatory Authorities from the Jurisdictions of Newfoundland and Labrador, Nova Scotia, New Brunswick, Prince Edward Island, the Yukon, the Northwest Territories and Nunavut.

ACI Central was founded in 1993 for the principal purpose of promoting standardized procedures for the review, classification, installation, operation and repair of pressure retaining components and equipment. For registration of boiler and pressure vessel designs in the member Jurisdictions you need only submit two (2) copies of the design and one (1) copy of the calculations.

The Fees for obtaining a CRN in the seven member Jurisdictions are outlined below.

ACI Central fees for design review:

ACI Central review and services	-----	250.00 + gst
Postage and	-----	50.00

Registration in one member jurisdiction = \$250 plus the provincial fee (plus gst where applicable.) It is necessary for you to submit a purchase order # for invoicing.

Through co-operation with the Technical Safety Standards Authority (TSSA), Ontario, we can request registration on your behalf in non member jurisdictions. In order to facilitate this service you will need to provide us with one additional copy of the design and calculations. TSSA will communicate directly with you regarding these registrations and associated fees.

When making submissions please refer to the following minimum requirements for design review:

- 1-Submit two (2) copies of the design and one (1) copy of the ASME code calculations. (One extra copy of-each if requesting registration in non member jurisdictions.)
- 2- For registration in Nova Scotia, Ontario, Prince Edward Island, Newfoundland and the Northwest Territories the design and calculations shall bear an original signature and seal of a registered Professional Engineer.
- 3- It is not necessary that the Professional Engineer be registered in Canada unless registration is sought in the Province of Ontario.
- 4- The design details shall be sufficient to support the calculations submitted and shall include a drawing of the complete unit.
- 5-When the Manufacturer has satisfied the review criteria, ACIC will recommend registration of the design to it's member jurisdictions.
- 6-A copy of the design bearing the official CRN will be returned to the Manufacturer.
- 7- Designs may be submitted on standard legal or letter size paper provided clarity can be maintained. the maximum size preferred is 11" X 17".
- 8-The Manufacturers name, brief product description and CRN will be published on ACI Central's "Silent Inspector" bulletin board and can be seen free of charge at <http://www.acicrn.com>.

If you have any questions do not hesitate to call.

Regards,

Krista Cudmore
Office Manager
